Proceedings of the New Jersey Historical Society

Index 1920-1931

Proceedings of the New Jersey Historical Society

VOL. 61, No. 4

OCTOBER, 1943

WHOLE NO. 235

INDEX TO THE PROCEEDINGS

1920-1931 inclusive

This index supplements the index from 1845 to 1919 printed in the Proceedings, New Series, Volume V, Number 1, (1920) and continues it down to the end of the New Series, Volume XVI, (1931). All of the leading articles and the more important minor items are included. The same method of reference is used as in the former index, thus N. S.-8:167 indicates New Series, Volume 8, page 167. The year of publication is omitted.

When the present editor took over in 1932, the practice of numbering the volumes by "Series" was abandoned and his first volume, being the fiftieth since publication started in 1845, was called Volume 50. (See note in Volume 50, page 109.) Also beginning in 1932, the October number of each year contains a complete index for that year, thus simplifying reference to articles printed subsequent to 1931.

Two changes have been made in the arrangement which we believe to be an improvement on the former index. Separate indices of authors and illustrations follow the subject index, and the obituaries of members are all alphabetically grouped under that heading.

INDEX TO THE PROCEEDINGS

1830-1931 inclusive

This index supplements the index from 1815 to 1910 printed in the Proceedings, New Series, Volume V, Number 1 (1930) and continues it down to the end of the New Series, Volume XVI (1931). All of the leading articles and the more important minor items are included. The same method of reference is used as in the former index, thus N. S.-8:167 indicates New Series, Volume 8, page 167. The year of publication is omitted.

When the present editor took over in 1932, the practice of numbering the volumes by "Series" was abandoned and his first volume, being the fifth since publication started in 1815, was called Volume 50. (See note in Volume 50, page 109.) Also beginning in 1932, the October number of each year contains a complete index for that year; thus simplifying reference to articles printed subsequent to 1931. Two changes have been made in the arrangement which we believe to be an improvement on the former index. Separate indices of authors and illustrations follow the subject index, and the obituaries of members are all alphabetically grouped under that heading.
